G03 GIALLO ARAGONITE

La finitura Giallo Aragonite prende inome daminerale cristallizzato da cui trae ispirazione. Una tonalità calda, scelta per aggiungere alla palette cromatica un tocco dagusto quasi retrò. Si integra con naturale eleganza sia in ambienti classici sia in contesti moderni, mantenendo un fascino senza tempo.

G04 Bianco QUARZO

La sua versatilità lo rende facile da abbinare anche in elementi e oggetti ornamentali..

G07 GRIGIO TORMALINA

La finitura Grigio Tormalina prende inome da un minerale primario che, durante la sua formazione, genera cristalli di grandi dimensioni e dalle tonalità molto variabili. CM lo propone in una versione grigio chiaro, delicata e leggera, capace di valorizzare e bilanciare i colori circostanti con l’eleganza tipica delle tonalità neutre.

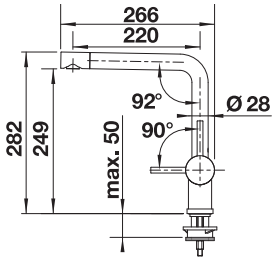

G08 GRIGIO EMATITE

La finitura Grigio Ematite si ispira alla gemma omonima, caratterizzata da una superficie opaca e da un colore grigio argentato che ricorda l’Acciaio, talvolta con riflessi Nero lucido.
